EXPERIENCE

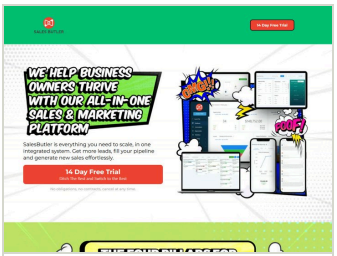

Freelance web, funnel and GoHighLevel developer · Fiverr and Upwork, remote — 2020 to present

- Delivered 200+ websites, funnels, online stores and automations for clients in the United States, Canada, the United Kingdom, Australia and the UAE. 84 of them are live today and listed at talhaabid.com/portfolio.
- GoHighLevel, 65+ builds: agency snapshots, client websites and funnels, pipelines, calendars, missed-call text-back, review requests, Twilio and Stripe connections, A2P 10DLC registration, SaaS-mode and white-label setups. Includes a white-label SaaS site (gosalesbutler.com) and 10+ pest control company sites built under a marketing agency's brand.
- ClickFunnels, 30+ funnels: sales pages, order forms and video sales letters for coaches and course sellers, custom code where the builder stops, and migrations from ClickFunnels Classic to 2.0.
- Shopify, 40+ stores: theme setup and customisation, Liquid edits, landing pages in PageFly and Shogun, product and collection pages, store migrations.
- WordPress, 45+ sites: Elementor, Divi and WPBakery builds, WooCommerce stores, redesigns, speed and maintenance work. Webflow: more than ten projects for one US health brand on Upwork.
- Automation: n8n and Zapier flows, Klaviyo and ActiveCampaign connections, webhooks and API work between the CRM, the forms and the payment tools.
- Every project ships with a recorded walkthrough and 30 days of fixes. Rated 5.0 on Fiverr (Level 2, 65 reviews) and Top Rated on Upwork with 100% job success.

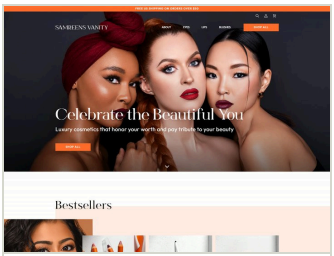

Front-end web developer · Conversion Elevation, software house, Lahore `2019 to present`

- Build websites, funnels and Shopify stores for the agency's clients, from Figma and PSD designs to responsive, working pages.
- Work with the design and project team on revisions, testing and launch, so that each project ships on time and the client can run it themselves.
